Bangalore, dated, 13th December 1929.

Sans 3-29-42

Dear Mr. Ranga Rao,

I am enclosing copies of correspondence to the Comptroller in regard to expenditures on the Stations for the Study of Malaria. To date no reply of any kind has been received. It is not necessary that all expenditures be included to the last anna. As long as the total exceeds Rs. 15,000/- and the headings are like the ones I have given, the Comptroller can certify to the expenditure of that much at least and the Foundation can pay Government the Rs. 5,000/-.

Can you get any immediate antion in this matter.

Yours sincerely,

W. C. Sweet,
Consultant in Health.

Kindly send a copy of the letter to the Comptroller + request him to expedite despatch. Tell Dr. Sweet that the matter will be promptly dealt with

Letter No. T. 135-3 dated the 3rd December 1929 from Dr. W. C. Sweet, B.Sc., M.D., C.P.H., Consultant in Health, with the Government of Mysore, Bangalore, to the Comptroller with the Government of Mysore, Bangalore.

Please refer to my letter No. T. 135 dated the 27th September, sending a statement of expenditure on Stations for the Study of Malaria for your correction, and of my reminder dated the 28th October. So far no reply of any kind has been received. May I please know the present status of affairs and get some idea of when it will be possible to send the statement to New York. Unless we can send it very soon, it may be impossible for the Foundation to include it in their 1929 financial settlements as their year closes on December 31st. Since we are anxious to have the money to cover certain of the sanitary engineering proposals, I am sure that Government would appreciate prompt action on your part.

Letter No. T. 135-2- dated the 28th October 1929 from Dr. W. C. Sweet, B.Sc., M.D., C.P.H., Director, Health Survey in Mysore, Bangalore, to the Comptroller with the Government of Mysore, Bangalore.

I write to invite your kind reference to my D.O. letter No. T. 135 dated the 27th September 1929, sending a statement of expenditure on the Stations for the Study of Malaria during the year 1928-29 for attestation, verification and return, for submission to the Rockefeller Foundation. As the same should reach the Foundation by the end of November, will you kindly expedite the matter?

Letter No. T. 135 dated 27th September 1929 from Dr. W. C. Sweet, B.Sc., M.D., C.P.H., Director, Health Survey in Mysore, to the Comptroller with the Government of Mysore, Bangalore. ----

As you may know the Rockefeller Foundation offered to bear Rs.5,000/- of the cost of the Stations for the Study of Malaria. A budget was prepared and approved by both Government and the Foundation and work began on the 1st.October, 1928 at Nagenhalli, Mysore Taluk. In order to complete its records, the Rockefeller Foundation will want a statement from Government as to expenditures on the Stations during the first year of their existence. For this reason I am enclosing such a statement, classified under the heads of the Rockefeller Foundation budget, for you to go over and correct if necessary.

Under salaries and allowances, I have included the salary of Dr. B. Anantaswamy Rao, Health Officer in Charge of Stations for the Study of Malaria, up to September 30, 1929 from date of appointment and his T.A. up to August 31, 1929. The salaries of the staff include allowances and are up to September 30th while the T.A. is to August 31st.

Under equipment is included one item, (f), for all expenses incurred for the Stations but appearing on the Health Survey Office contingent bills. The remaining items are, I believe, self-explanatory.

Will you please write me stating that the expenditure on Stations for the Study of Malaria are as given in a statement which you will please attach to your letter and sign. The statement should be under the same headings as my statement but it is not necessary to itemize except in the case of salaries and allowances which should be under two heads, (a) Director, (b) Staff. The remaining items may simply be totals.

As this statement should reach the Foundation by the first of November will you please consider the matter as urgent.

D.O. No. T.238

OFFICE OF THE CONSULTANT IN HEALTH
WITH THE GOVERNMENT OF MYSORE,

Bangalore, dated, 4th January 1930.

Dear Sir,

The General Secretary to Government has sent me a copy of your letter to him No. A. II. 338 dated the 18th December 1929 which I received on the 24th December. In this connection I regret to inform you that I have never received your letter No. 206/A.II dated 7th October 1929 nor did I receive your letter No. 326/A dated 17th December, 1929. By sending to your office I got yesterday a copy of the last letter but did not obtain a copy of the 206/A.II.

I am sending you with this a more detailed statement of expenditures mentioned in my statement submitted with my letter No. T. 135, dated 27th September, 1929. As far as our records go we have mentioned the bills on which the amounts to be considered were paid. The dates on which the amounts were drawn it is not possible to give at present without a very considerable waste of time involved in writing to the firms to whom the amounts were paid. I hope the present statement will be sufficient for your purposes.

In this connection I may say that the Rockefeller Foundation agreed to contribute Rs. 5,000/- a year for two years to a budget for malaria work which was to exceed Rs. 15,000/-. The Foundation's contribution was not to

3980

18

be for specific items but towards the total budget. A similar agreement was made in regard to the Rural Health Unit at Mandya and I will shortly be submitting statements for that as the first year ends March 1, 1930. Since this agreement has another year to run I would / suggest that the accounts for these two branches of our work be kept separately and distinct from the accounts of this office. I will see that all future bills of any kind bear correct information so as to enable this to be done, if that is desired.

We are already late in sending the statement tc the Foundation, so I hope it will be possible to have the figures verified and your letter ready for transmission to New York at once. I regret that the unaccountable loss of letters has caused this delay.

Yours sincerely,

W. C. Sweet,
Consultant in Health

With reference to your D.O.letter No.T.238 dated 4/6th January 1930 regarding the expenditure on Malarial Stations, I have the honour to state that both the letters were sent by post to your address and it is not known how they were miscarried.

As regards the details of expenditure in the form furnished, I may state that the figures, specially under contingencies, are not verifiable either from bills or from the audit registers of this office as reference is not given against several items as to whether the charges relate to the Malarial Stations or otherwise. A statement showing the items of expenditure under all heads other than contingencies as noted in the statement furnished by you verified with reference to bills and the audit registers is however appended below for reference.

In respect of contingencies figures may be furnished by you as per your books as your analysis and allocation of these charges are not recorded in this office.

Arrangements will be made to open detailed heads in accordance with the Reorganisation of the Department ordered in G.O.No.G 6689 730 Sany.55-27-34 dated 28th November 29 and a statement of expenditure actually incurred from 1st July 29 classified under the several heads may kindly be furnished for reference as to the particulars are not available in this office.
